## PROJECTS

### My TeeParty, Website for Golfers — *Python, Django*

November 2019

- Clickable prototype

## EXPERIENCE

### Coding Dojo, San Jose, CA — *Student*

October 2019 - January 2020

Onsite coding bootcamp focused on a curriculum of three full stacks, including front and back end of Java, Python, JavaScript. Experience with web development and program creation, styling and revision. Built skills in self sufficiency, independent learning and team oriented progress by gaining strength through struggle and motivation through success.

### Stanford Continuing Studies, Online — *Student*

December 2018 - February 2019

#### Beginning Programming in Python: An Online Course

Course was the ideal introduction to the general foundation of computer programming to an aspiring programmer. I learned fundamental syntax and basics of the Python language. I was also introduced to control structures, loops, arrays, lists, and functions.

### Waterdog Tavern, Belmont, CA — *Food Server*

May 2018 - October 2019

- Promoted sales with specific product knowledge
- Ensured positive customer experiences
- Worked towards team oriented goals
- Handled cash

### Paul Martins, San Mateo, CA — *Bartender*

August 2017 - September 2018

- Recreated classic cocktails and specialty beverages
- Increased company specific and external knowledge of spirits, wine, beer, cocktail and food trends
- Ensured prompt and accurate service cycle for dining room and bar
- Maintained cleanliness and organization of bar area
